

I am one of the mothers that was separated from their children. They took my two children, a 7-year-old girl and a 10-year-old boy on June 3, 2018. When they took them, they told me I would get them back in 2 days because where I had to go to be prosecuted was no place for children, so I agreed, but they tricked me because I am still locked up and I don't know what is going to happen to them and to me.

Please help me, I am begging you, I don't know what to do without them. They killed me alive, I swear. I need your help because from here locked up I can't do anything for them. There are moments I swear I feel am going crazy and I hope that if any of you is a mother, you could understand the pain that we are feeling because they have ripped away the most wonderful thing God has given us, which is our children. Is it that the President doesn't have any children so he can ignore the pain he is causing us? I am one of the mothers that is running away from their own country because they threatened to kill me and my children, and that is why we ran away, but here they killed us alive by taking away our children.

Please help me.
