

Hello Carmen.

I am Antonia [last name and ID # redacted]. We are very worried. We have many mothers here and we beg you to help us to give us back our children. Here, no one tells us what will happen with us and our children. They are very desperate. My son asks me to get him out and I am here, locked up, without the ability to do anything. I feel so powerless from not being able to help my son. Please help bring him back to me. It has been a month since they snatched him from me and there are moments when I can no longer do this. I am very sad. I would like the media that they say come to Don Hutto in Taylor to help us, but they just lock us up and don't let them enter. But please help them so that what is happening to us has a limit and they don't keep doing us more harm. And they also treat us very badly, if we ask something they answer us so angrily. They're humiliating us and I feel very bad. I ask God to give me strength for my son. I no longer eat or sleep. I don't know what to do. My son is named Deyvis [details redacted]. I only want you to bring me my son and if they are going to deport me, well then just do that, but with my son. I'm not leaving here without him. I hope you help me and God willing I leave here soon with my son, and thank you for helping us Carmen. May God bless you.
