Antonia [full name redacted] ID: [redacted]

I need your help, to be heard by the media so that they give me back my son. His name is Deyvis [full name redacted] and he is 12 years old. I've only been able to get this information:

ID Tif

[numbers redacted]

This is my statement. They separated me from my son on May 31st at the ice boxes (hieleras); we got separated at the ice boxes that same night. I asked to see my son but they said no; they said after June 4th, which was my court hearing, I would be able to see him, but that wasn't true. There were many women hoping to see their children again but since then I haven't seen him, since they separated us with lies.

I was able to talk to him on June 20th, 2018 and he was begging me to get him out of that place. He was crying and it made me feel helpless, not being able to do anything from inside here to get my son back. As a desperate mother, I am asking you the favor of letting my voice be heard to know if my son is okay and and to be reunited with him. I want them to bring him back to me in the same state as they took him from me. I am afraid thinking of how he's doing because since day one, they've been treating us badly. They put us in cold rooms and today I don't really know where my son is or how he's doing.

I am a mother asking for help, that they please return my son to me and end this cruelty of separating children from their parents. It's painful for me to be separated from my son, please help me and help my voice to be heard.

I hope to have some news soon.

I am Antonia [full name redacted] and I am being detained in Don Hutto, Taylor, TX

Thank you for your attention. God bless you.

For: Adriana [last name redacted]
