

Hello, the reason for this note is to report something that is happening to me. I do not give my name because I am very afraid to speak about what is happening. When I go out to recreation I feel the gaze over me of an official known as Miss [Redacted]. I do zumba exercises and she's always there close by, with her gazes over me that make me feel uncomfortable. She almost always tries to draw conversation out of me and I almost always ignore her. When she says something to me I answer with a yes or with a no, I do everything possible to get far away from her. I fear greatly for my safety, I don't want the same thing to happen to me as has happened to other people in this place. And I do not give my name because I already have my credible fear and my bond that is [amount redacted] and [specific fear of retaliation redacted]. I decided to stop going to the recreation area for fear of what is happening. Thank you for your attention.
